## **Objectives**

Trop-X aims to provide the platform for Seychelles to continue as a facilitator of trade in the region for the 21<sup>st</sup> century. Trop-X intends to provide for institutional and retail investors from around the world to trade a variety of asset classes including listed equities, debt instruments, futures, options, ETFs, derivative products and more with the security of top rated internationally recognized participant banks all from one exchange. Trop-X aspires to become the premier financial market of Africa, the Middle East and Southern Asia region.

## **Brief History**

Seychelles lies at the heart of the old Indian Ocean trade routes which were traversed by Asian, Arab and African traders making it a fitting destination for the launch of Trop-X. Trop-X provides the platform for Seychelles to continue as a facilitator of trade in the region for the 21<sup>st</sup> century. Trop-X, the flagship Exchange of the Quote Africa Group started operations on the 8<sup>th</sup> of August 2013 with the launch of the Equities Boards.
