

Member's Profile

Name of Financial Information Provider	SIX Financial Information Ltd
Country/Region	Switzerland
Board of Directors/Name of CEO	Robert Jeanbart CEO SIX Financial Information Ltd, Zurich
Number of Officers and Employees	1'300 (SIX 3'800)
Ownership/Main Shareholders	SIX is owned by approximately 150 domestic and foreign banks, which are also its customers. SIX is subject to consolidated supervision by the Swiss Financial Market Supervisory Authority (FINMA). Due to their systemic relevance, some of the IT applications operated by SIX are subject to supervision by the Swiss National Bank.
Division/Subsidiaries	With offices in 24 countries, SIX Financial Information combines the advantages of global presence and local know-how.
Objectives	SIX operates the competitive infrastructure underpinning the Swiss financial center, catering to an ever increasing global client base. Its business fields provide infrastructure services relating to securities trading, securities clearing and settlement, financial information and payment transfers. This includes the operation, regulation and monitoring of electronic exchange trading, the calculation of indexes, downstream settlement and custody processes of securities trading, the distribution of reference and market data, operational processes relating to the issuance and acceptance of credit, debit and prepaid cards, the settlement of cashless transactions and electronic bills, and interbank payment transactions in Swiss francs and euro.
Brief History	With the aim of transmitting stock exchange prices, Ticker AG was founded on 5th July 1930 in Zurich. 1962 Ticker AG is renamed Telekurs AG. 1975 Investdata is launched, giving the financial community its first online financial information display. Telekurs takes over the administration of the valor number registry which was previously handled by the Swiss Bank Cooperation. Telekurs now is the official Swiss numbering agency. 1986 Telekurs (Deutschland) GmbH is founded. The ring information system is introduced at exchanges in Geneva and Basel. Zurich and Lausanne follow suit in 1987. 1987 Telekurs (France) S.à.r.l., Telekurs (U.K.) Ltd., Telekurs (Nederland) BV and Telekurs (North America) Inc. are founded. In Luxemburg, an inter-connecting office is opened. The financial information system INDES is put into operation. The Swiss Performance Index (SPI) is introduced. 1988 Telekurs (Japan) Ltd. and Telekurs (Singapore) Pte Ltd. are founded.

1989 Telekurs AG launches a number of new services: Investvision, Historical Prices, Telekurs Digital Feed (TDF), Remote Batch Application (RBA) and a product for SOFFEX options. Telekurs (North America) Inc. takes over the "Trading Systems" field from Standard & Poor's in New York.

1996 On 1st January 1996, a holding company structure is set up comprising the following companies: Telekurs Holding AG, EUROPAY (Switzerland) SA, Payserv AG, Telekurs Finanzinformationen AG and Telekurs Logistik AG. Telekurs (France) S.à.r.l. is sold to FININFO SA in exchange of a minority participation. Telekurs MDFTM (Market Data Feed) is launched.

1998 VDF (Valor Data Feed) was implemented.

2008 In January, SWX Group, SIS Group and Telekurs Group announce their merger: Swiss Financial Market Services is born.

In August, Swiss Financial Market Services AG announces that in future it will operate under the name SIX Group AG. This umbrella brand stands for Swiss Infrastructure and Exchange.

In September, Telekurs Financial Ltd officially unveils its new name and logo, following the re-branding of its parent company, the SIX Group. From now on Telekurs Financial Information Ltd shall be called SIX Telekurs Ltd.

2012 In April, all the business areas of SIX Group are using the single brand SIX. SIX Telekurs becomes SIX Financial Information.

As the **official numbering agency** for Switzerland, Belgium and the Principality of Liechtenstein, SIX Financial Information is responsible for allocating Swiss security identification numbers ("valoren numbers"). It is a founding member of the Association of National Numbering Agencies (**ANNA**) and leads the way in introducing standards aimed at simplifying trading and securities administration.

Products/Data Range

The SIX Financial Information database includes real time prices and securities administration data on nearly 8 million instruments from over 850 data sources.

SIX Financial Information has always been dedicated to delivering the best quality and furthest-reaching, global market and reference data available in the industry. We have divided our products into four categories. These are reference data and pricing, market data, display and solutions.

The global products facilitate easy access to the entire SIX Financial Information data range. Unique is the direct linkage of master data and corporate action data with up-to-date price information and business news.

The product range is divided into:

- **Display products** for specialized searching and convenient display of the data on the screen
- **Processing products** for further processing of the delivered data in your database
