

## **APARG Report 2018**

The Asia-Pacific Regional Groups (APARG) were formed via an approved membership resolution, passed at the ANNA AGM of June 2013, held in Rome Italy. Two groups were formed, namely APARG East and APARG West, to allow for more effective management of relevant discussion items.

The main purpose behind these Regional Groups was to establish an effective interface where ANNA related information and experiences can be shared amongst the APAC based members and partners – in the spirit of mutual cooperation.

Discussions amongst the participating members continued to remain largely ad hoc through the course of 2018. Action items and assistance from APARG members therefore are initiated at the request of the convenor or APARG participants when needed.

Thank you

Dan Kuhnel  
APARG Regional Groups Convenor
