

Biography

Stephan Dreyer is Managing Director at the Association of National Numbering Agencies (ANNA). He is responsible for operational oversight of the ANNA Service Bureau (ASB), data quality management, as well as managing the transformation of the ASB to a new technology platform. Stephan is convener of ANNA's Working Group on Digital Assets, a participant in the DTI PAC, joint task force with ETS on digital assets, and participates in several ISO working groups on DTI and CBDC. Stephan is also responsible for the daily management of ANNA and membership matters. Prior to working at ANNA, Stephan spent 25+ years working for Bloomberg LP in the US, London, and Frankfurt as a Senior Product Manager for Fixed Income Debt Capital Markets and Securitized Derivatives within the Data Management Division, where he spearheaded development of data products for market transparency and regulatory purposes.
